

## Low-cost Birth Control

We have:

- The pill: Taken daily. Many brands available.
- The patch: Placed on the skin and left on for a week.
- The ring: Placed in the vagina for 3 weeks.
- The shot: Given by needle every 3 months.
- You can get your prescription from us if you are under 25 years old.
- You can bring in a prescription from another provider if you are 25 or older.

Public Health is committed to providing accessible programs and services to all. To request this, or any other publication in an alternative format, please contact 613-966-5500 or by email at [accessibility@hpeph.ca](mailto:accessibility@hpeph.ca)
